WELCOME MESSAGE

Prof. Dr. Ghazi F. Haji
Head of Iraqi Hypertension Society

Dear colleagues

On behalf of the organizing committee of The 4th International Conference of Iraqi Hypertension Society which is supported by ISH, it is our great pleasure to welcome you to this conference. The theme of this congress is "Hypertension control in Iraq: Role of clinicians, Communities and Health Policy". This year the congress has been designed to provide an innovative and comprehensive overview of the latest research developments in hypertension. Over the course of two days, the congress will feature symposia and keynote sessions. The meeting will cover a large number of topics not only in the field of hypertension but also of other cardiovascular and metabolic disorders related to hypertension. We deem to pay particular attention to new technologies, such as innovative devices, new communication tools, and biological research. We hereby warmly welcome you to a meeting that will definitely be in line with the vision of (IqHS): a vision to provide high-quality educational resources and to enable Hypertension Practitioners to provide optimal care for patients. Wishing you a wonderful conference and an enjoyable time.
